Profile Summary

Full Stack Developer and Cybersecurity focused Engineer passionate about Artificial Intelligence, Automation, and Secure Software Development. Experienced in building modern web applications, AI-powered platforms, workflow automation systems, and penetration testing solutions. Strong expertise in Next.js, React, Node.js, Python, and vulnerability assessment methodologies. Proven ability to combine software engineering, cybersecurity, and AI technologies to develop innovative and secure digital solutions.

Technical Skills

Frontend: Angular, React, Next.js, TypeScript, Tailwind CSS, HTML5, CSS3, JS

Backend: Node.js, Express, Python, Laravel

Databases: PostgreSQL, MySQL, Supabase, MongoDB

DevOps & Tools: Docker, Git/GitHub

Cybersecurity: OWASP Top 10, Burp Suite, Nmap, Metasploit, Wireshark, API Security

Languages: Arabic (Native), English (Fluent), French (Intermediate)

Projects

Automated SocialMedia Videos Studio

2026

- AI-powered system for automated short-form video generation (TikTok / Reels / YouTube Shorts)
- Built using Next.js, TypeScript, Tailwind CSS
- AI pipeline: Google Gemini (script generation) and Murf.ai (TTS voiceover)
- FFmpeg-based rendering engine for scene composition, transitions, and audio mixing
- Playwright and Chrome Extension for automated visual generation via Meta AI
- TikTok API integration for direct publishing automation
- Modular architecture with 15, API routes and scalable service design

Full Stack Developer ProClimaTechnique (Freelance)

2026

- Developed a business website using Next.js for HVAC and event air conditioning rental services
- Designed and implemented an online reservation system integrated with WhatsApp for direct customer inquiries and bookings
- Built dynamic booking forms with automated data collection and redirection to WhatsApp conversations
- Optimized website performance, SEO, and responsive user experience across desktop and mobile devices

Full Stack Developer Tidy Patterns (Freelance)

2025

- Built scalable e-commerce platform for digital products
- Implemented Next.js SSR/ISR for performance and SEO optimization

- Integrated Stripe payments with webhook-based order processing

Full Stack Developer Microsoft Tech Club ISET Sfax 2024 – 2025

- Developed event management and recruitment platforms (NextJs ,SupaBase)
- Built cybersecurity learning platform (CyberTech Exchange)

Internship Experience

Cybersecurity & AI Engineering Intern Tunisian Cloud 2026

- Developed an AI-Driven Vulnerability Management Platform as an end-of-studies (PFE) project
- Designed and implemented a containerized microservices architecture for vulnerability management operations
- Developed backend services using Go (Golang) and AI modules using Python
- Built a responsive frontend with Angular and integrated PostgreSQL databases
- Implemented API Gateway, authentication, project management, vulnerability tracking, and reporting services
- Deployed services using Docker and integrated AI-powered vulnerability analysis and remediation recommendations

Web Application Pentest Intern Doxso Technologies 2026

- Performed full penetration testing on real-world web application
- Identified critical vulnerabilities including XSS (CVSS 8.8) and injection flaws
- Delivered professional security audit with remediation strategies

Full Stack Developer Intern FlexiFleetTech 2025

- Developed a vehicle reservation and fleet management web application
- Built the frontend using Next.js and implemented backend services with Laravel
- Designed and integrated RESTful APIs for booking, vehicle management, and user operations
- Implemented responsive user interfaces and optimized application performance
- Collaborated on database design and application deployment processes

WordPress Developer Intern Vision Software & Services, Sfax 2024

- Developed a custom WordPress plugin integrating AI-powered content generation capabilities
- Implemented automated page content creation using artificial intelligence APIs
- Designed and optimized plugin features to enhance content management workflows
- Participated in plugin testing, debugging, and deployment within WordPress environments

Community Involvement

Cybersecurity Trainer (Workshops) 2025 – Present

- Conducted ethical hacking and penetration testing workshops

President Microsoft Tech Club ISET Sfax 2024 – 2025

- Organized hackathons and technical events

Cybersecurity Content Creator 2021 – Present

- Producing tutorials on ethical hacking and cybersecurity tools

Education

Bachelor in Information Systems Development
ISET Sfax, Tunisia **Bachelor in Computer Science**
18 Janvier Jebiniana, Sfax

2023 – 2026
2023
